WORK EXPERIENCE

Front-End web developer

HNG internship

10/2022 - 12/2022

Remote.

HNGig was hosted by the Zuri network in collaboration with i4G network.

Achievements/Tasks

- Worked with a team of front-end developers to build an AI-powered webapp - SpeakBetter (twitter @speakBetterAI). SpeakBetter takes in audio and textual data and points out errors while also returning the correct form.
- Developed new user-facing features and internal dashboards.
- Implemented new features while writing re-usable and maintainable code.
- Connected frontend components to the backend using Restful APIs.

Freelance Web Developer

Various clients

2022 - Present

Achievements/Tasks

- Developing front-end features using HTML5, CSS3, JavaScript, React and other tools and frameworks.

PROJECTS

CTA Fintech Website (03/2023 - 07/2023)

- Built and maintained a multi-page website using ReactJS and tailwindCSS and additional NPM packages for a startup fintech company.
- (<https://ctafintechsolutions.com>)

Portfolio Website

- Built a single-page portfolio website using React, tailwindcss and additional NPM packages. All personal projects can be viewed here. (<https://bohemian-x.dev>)

Speakbetter AI (10/2022 - 01/2023)

- Worked with a team of developers, designers, managers and marketers to build an AI-powered speech correction app.
- <https://speakbetter.fun>

Space tourism multi-page website

- Built a responsive multi-page website with React and TailwindCSS. Data is injected dynamically from a local JSON file. (<http://space-tourism-web-delta.vercel.app/>)

Countries List App with Rest API

- A responsive react project styled with tailwindcss that dynamically injects information about countries of the world from Rest API with the use of react tools. (<http://countries-list-app-with-rest-api.vercel.app/>)

Single e-commerce product page

- Built a responsive product page with React, TailwindCSS, Redux toolkit. (<http://single-e-commerce-page.vercel.app/>)
