EDUCATION

Bachelors degree

Federal University of Agriculture, Abeokuta.

12/2015 - 12/2019

Courses

- Accounting

PERSONAL PROJECTS

Portfolio Website

- Built a single-page portfolio website using React, tailwindcss and additional NPM packages. (<https://portfoliov2-single-page.vercel.app/>)

Space tourism multi-page website

- Built a responsive multi-page website with React and TailwindCSS. Data is injected dynamically from a local JSON file. (<http://space-tourism-web-delta.vercel.app/>)

Countries List App with Rest API

- A responsive react project styled with tailwindcss that dynamically injects information about countries of the world from Rest API with the use of react tools. (<http://countries-list-app-with-rest-api.vercel.app/>)

Memory Game

- A simple single-page memory game web app developed with React tools and deployed via Vercel. (<https://memory-game-project-bohemiancode-x.vercel.app/>)

Recorder-App (Capstone project)

- Built a screen recorder web app using React tools and deployed via Vercel. (<https://capstone-project-recorder-app-bohemiancode-x.vercel.app/>)

Coinblock landing page

- A simple react project designed to illustrate the use of fetch API functions and injecting API data into the DOM. Data is retrieved from coingecko API. (<http://project-coinblock-landing-page.vercel.app/>)

WORK EXPERIENCE

Managing Partner

Acesworld NG

10/2019 - 12/2020

Lagos, Nigeria

SKILLS

HTML

CSS

JAVASCRIPT

REACT

Command Lines

Github for version control

TailwindCSS

Bootstrap

Styled Components

TOOLS

CodePen
