WORK EXPERIENCE

Front-End web developer
HNG internship

10/2022 - 12/2022   *Remote.*
HNGi9 was hosted by the Zuri network in collaboration with i4G network.

Achievements/Tasks

- Worked with a team of front-end developers to build an AI-powered webapp - SpeakBetter (twitter @speakBetterAI). SpeakBetter takes in audio and textual data and points out errors while also returning the correct form.
- www.speakbetter.fun

PROJECTS

Portfolio Website
- Built a single-page portfolio website using React, tailwindcss and additional NPM packages. All personal projects can be viewed here. (https://bohemian-x.dev)

Space tourism multi-page website
- Built a responsive multi-page website with React and TailwindCSS. Data is injected dynamically from a local JSON file. (http://space-tourism-web-delta.vercel.app/)

Countries List App with Rest API
- A responsive react project styled with tailwindcss that dynamically injects information about countries of the world from Rest API with the use of react tools. (http://countries-list-app-with-rest-api.vercel.app/)

Memory Game
- A simple single-page memory game web app developed with React tools and deployed via Vercel. (https://memory-game-project-bohemiancode-x.vercel.app/)

Single e-commerce product page
- Built a responsive product page with React, TailwindCSS , Redux toolkit. (http://single-ecommerce-page.vercel.app/)

Speakbetter AI
- Worked with a team of developers, designers, managers and marketers to build an AI-powered speech correction app.
- www.speakbetter.fun
